Follow-up & CRM activity

Follow-ups completed	34	Client, proposal, and project status checks
Pending follow-ups	8	Carried into next reporting period
CRM records updated	27	Status, notes, dates, or contact details
Priority items flagged	11	Time-sensitive proposals, client replies, or project actions

Month-end review

- Moved awarded projects into the active workflow and confirmed the next required action for each account.
- Reviewed proposal-stage records and maintained follow-up dates for opportunities still awaiting a decision.
- Updated closed project records so project status, notes, and values were complete and easy to reference.
- Kept project records organized by stage to make open work, pending decisions, and completed projects easier to track.

Next-month priorities

- Follow up on the eight pending items and document outcomes in the CRM.
- Review bidding and proposal-stage projects first to prevent missed deadlines or stalled opportunities.
- Confirm that newly awarded projects have complete contact details, scope notes, and scheduled next steps.
- Continue closing out completed work promptly so active pipeline totals remain accurate.
